

The GS Data Tool is not designed to receive confidential business information (CBI). If you would like to claim any information as CBI, please contact your permitting authority for further information and instructions.

In order to submit information through this tool, you must complete, notarize and submit a hardcopy of the Electronic Signature and Use Agreement to EPA at the address indicated on the form. If you have any questions, please contact your permitting authority.

Project ID: R09-CA-0002

Project Name: CES CNE Mendota

Current Project Phase: Phase1-Pre-Construction

Select the desired reporting tool:

- **Project Information Tracking:** this module allows users to enter basic project information and guides them through the submission of Class VI permit applications (pursuant to 40 CFR 146.82(a)), information submitted prior to approval of injection operations (40 CFR 144.39 and 144.41). View user guide.
- **Area of Review and Corrective Action:** this module (also known as the "input advisor") collects related site characterization and corrective action information to support the requirements at 40 CFR 146.82(d).
- **Financial Responsibility Demonstration:** this module is used to submit information to support financial responsibility demonstration requirements at 40 CFR 146.93(b)(3), including cost estimates and information about financial instruments. View user guide.
